BARE YOUR PALATE...

NAKED EARTH HAS ARRIVED, in blends of certified organic grapes from the sun-soaked vineyards of Languedoc-Rousillon in the South of France. Stripped down to the basics of viniculture, Naked Earth's grapes are crafted purely by their environment, from vines living in ecological harmony with the soil, water and organisms, to raise healthier grapes from natural settings.

In the winery is where the magic of nature transforms the pure terroir into beautiful flavor concentrations, and where the same care given to nature is captured in every bottle – each one a sample of the Naked Earth.

Let go, but don't trash the bottle – it's 100% recyclable.

CERTIFIED ORGANIC.

Naked Earth Rouge and Blanc are crafted exclusively from organically grown grapes certified by ECOCERT, the inspector and certifier of organic and sustainable foods in over 80 countries around the world.

100% RECYCLABLE.

From the label to the screw cap, Naked Earth uses entirely recyclable materials. The bottle, label, screw cap, even the cardboard cartons can be recycled locally in most regions.
